steal this file sharing book tackles the thorny issue of file sharing networks such as kazaa morpheus and usenet it explains how these networks work and how to use them it exposes the dangers of using file sharing networks including viruses spyware and lawsuits and tells how to avoid them in addition to covering how people use file sharing networks to share everything from music and video files to books and pornography it also reveals how people use them to share secrets and censored information banned by their governments includes coverage of the ongoing battle between the software video and music pirates and the industries that are trying to stop them

we've outsourced too much of our thinking how do we get it back have you ever followed your gps device to a deserted parking lot or unquestioningly followed the advice of an expert perhaps a doctor or financial adviser only to learn later that your own thoughts and doubts were correct and what about the stories we've all heard

over the years about sick patients whether infected with ebola or covid 19 who were sent home or allowed to travel because busy staff people were following a protocol to the letter rather than using common sense why and how do these kinds of things happen as harvard lecturer and global trend watcher vikram mansharamani shows in this eye opening and perspective shifting book our complex data flooded world has made us ever more reliant on experts protocols and technology too often we've stopped thinking for ourselves with stark and compelling examples drawn from business sports and everyday life mansharamani illustrates how in a very real sense we have outsourced our thinking to a troubling degree relinquishing our autonomy of course experts protocols and computer based systems are essential to helping us make informed decisions what we need is a new approach for integrating these information sources more effectively harnessing the value they provide without undermining our ability to think for ourselves the author provides principles and techniques for doing just that empowering readers with a more critical and nuanced approach to making decisions think for yourself is an indispensable guide for those looking to restore self reliant thinking in a data driven and technology dependent yet overwhelmingly uncertain world

copied with global environmental change disasters and security threats challenges vulnerabilities and risks reviews conceptual debates and case studies focusing on disasters and security threats challenges vulnerabilities and risks in europe the mediterranean and other regions it discusses social science concepts of vulnerability and risks global regional and national security challenges global warming floods desertification and drought as environmental security challenges water and food security challenges and vulnerabilities vulnerability mapping of environmental security challenges and risks contributions of remote sensing to the recognition of security risks mainstreaming early warning of conflicts and hazards and provides conceptual and policy conclusions

what can a study of international film contribute to our understanding of education in a globalized context how can such an exploration further push the boundaries of comparative and international education cie as an academic field in addressing these questions irving epstein brings together insights from film theory affect theory and cie to explore the ways in which educational meanings are mediated through globalization

processes some of the many films discussed in detail in the book include parasite small axe my octopus teacher the pearl button and a separation epstein shows how films can speak broadly to issues involving social class privilege racism colonialism and indigeneity and environmental justice regarding educational concerns
